

# Whitescreen.dev – The All-in-One Online Screen Tool for Cleaning, Testing, and Lighting

Need a quick way to test your screen, clean your monitor, or light up your video calls? **Whitescreen.dev** is a powerful yet minimal web-based tool that turns your device into a fullscreen color display — no apps, no logins, just a click.

---

## What Is Whitescreen.dev?

Whitescreen.dev is a browser-accessible fullscreen color utility that instantly transforms your screen into a solid background. It's lightweight, intuitive, and built for practical use.

Whether you're a student, tech professional, or content creator, here's what you can do with it:

-  Spot dust and smudges for better cleaning
-  Check your display for dead pixels or backlight issues
-  Use it as a lighting source for online meetings or videos
-  Create neutral backdrops for photography or filming
-  Eliminate digital distractions for better focus

No software downloads. No tracking. No clutter.

---

## One Tool, Many Color Options

Access your desired background instantly using the links below:

- White Screen – <https://whitescreen.dev>
- Black Screen – <https://whitescreen.dev/black-screen>
- Blue Screen – <https://whitescreen.dev/blue-screen>

- Green Screen – <https://whitescreen.dev/green-screen>
- Red Screen – <https://whitescreen.dev/red-screen>
- Yellow Screen – <https://whitescreen.dev/yellow-screen>
- Orange Screen – <https://whitescreen.dev/orange-screen>
- Pink Screen – <https://whitescreen.dev/pink-screen>
- Purple Screen – <https://whitescreen.dev/purple-screen>

Every color loads in fullscreen and works on all devices, including desktops, laptops, tablets, and smartphones.

---

## Light Up Your Calls with Zoom Lighting

Poor lighting during virtual meetings can ruin your appearance. The **Zoom Lighting** feature from Whitescreen.dev lets you use your screen as a soft light, helping you look brighter and more professional without additional equipment.

Try it here: <https://whitescreen.dev/zoom-lighting>

Perfect for Zoom, Google Meet, Skype, and other video platforms.

---

## Multilingual Support for Global Accessibility

Whitescreen.dev is built for users around the world, with multiple language versions available:

- French – <https://whitescreen.dev/fr>
- German – <https://whitescreen.dev/de>
- Spanish – <https://whitescreen.dev/es>
- Portuguese – <https://whitescreen.dev/pt>
- Turkish – <https://whitescreen.dev/tur>

Just open the version that suits your language — no settings to change.

---

## Who Should Use Whitescreen.dev?

This tool is incredibly useful for:

-  Developers testing display performance
-  Students creating distraction-free study environments
-  Creators filming product shots or interviews
-  Teachers needing a clean digital board
-  Anyone who wants a spotless screen

It's built for convenience — whether at home, in the office, or on the go.

---

## Features That Make It Stand Out

- 100% free and ad-free
- Instant access — no account needed
- Mobile-friendly and works offline
- Loads in any browser (Chrome, Safari, Firefox, Edge)
- Lightweight and privacy-focused

Whitescreen.dev does one job, and does it flawlessly.

---

## Try It Out — It Only Takes One Click

No matter the task — cleaning, testing, lighting, or focusing — **Whitescreen.dev** is your go-to fullscreen color tool. Simple, effective, and always ready.
